BALLARD AVE. DRAINAGE (GOLF COURSE SIDE)

The Board asked our Engineering firm to take one more look to see if there is anything more the District can do to help with the drainage issue on Ballard Ave. We know from the as-built plans that the road is low in some areas and a few of the houses are not built 18" above the crown of the road. This is the main problem but staff will re-evaluate.

Mr. Mauck requested staff provide information to Orange County about a catch basin that is failing on Netherland Street. Mrs. Mullins will confirm that Orange County is aware of this problem.
